Economics: MA ECON, MA ECON (with Finance Specialization)

Join a welcoming and collaborative campus community and learn from internationally-recognized researchers in the Master of Arts (MA) in Economics program at the Lang School of Business and Economics. This advanced program will extend your economics and finance knowledge and prepare you for a variety of roles within the public and private sectors, as well as further education at the PhD level. The program offers a finance specialization for students who wish to focus their studies towards finance-based economics.

Program

Master's students can choose a course-based degree (8 months) or course work plus Major Research Project (MRP) degree (12 months). The MRP is completed in the third semester, supervised by a faculty member. Both specializations (Economic and Finance) will need to take a non-credit preliminary mathematics course as well as the Economic core of advanced microeconomics, macroeconomics and econometrics. Students interested in the finance specialization will need to take additional courses in theoretical and empirical finance.

Economics: PhD

The PhD in Economics program at the Lang School of Business and Economics will prepare you to become an independent and skilled researcher, in preparation for a career in academia, public or private sector. As a student in the program, you will benefit from learning and conducting your own research beside some of the world’s most renowned economists and leaders in financial economic theory. Our faculty currently rank in the top 4% of the world for research output in economics, according to Research Papers in Economics (RePEc).
