

## Political Science: MA, PhD

Political Science is a research-intensive and teaching-oriented department, offering students a dynamic and engaging environment. Our faculty members pursue a wide range of research interests, are widely published, and are active in obtaining grant funding from SSHRC and other sources. The department also has a strong track record in helping graduate students obtain research funding of their own, including SSHRC, OGS, and Trillium. With small class sizes and ample faculty support, our graduate programs are dedicated to improving students' skills as researchers and communicators.

### Program

**MA Program:** The MA program revolves around the theme of Rights, Justice, Citizenship, and Identity while allowing flexibility for students to pursue their various interests. Within the broader framework of Rights, Justice, Citizenship and Identity, the Department has particular strengths in Public Policy and Administration and Global Justice and Politics and offers a number of courses related to those topics.

Our broad range of course offerings and options to complete the degree (course-based, Major Research Paper or thesis) allows students to tailor their experience towards their future employment or academic goals.

**PhD Program:** The PhD program offers students the opportunity to pursue studies in six fields:

- Canadian Politics
- Comparative Politics
- Gender, Race, Indigeneity, and Sexuality
- International Relations
- Law and Politics
- Public Policy and Governance

Students are required to major in one field and minor in another.

The PhD program is designed both for students interested in pursuing academic positions and also for students interested in working in research capacities in the public, non-profit or private sectors.

*"My research focuses on the justice gap in sexual assault court cases, where legal professionals avoid the law-on-the-books, re-traumatizing and re-victimizing survivors during trial. My thesis will evaluate Canadian law school curriculum on sexual assault to explain this behaviour and make recommendations to remedy this gap in court."*

– Samantha Powless, PhD candidate in Political Science

Students can pursue collaborative MA & PhD specializations in International Development Studies, One Health, or Sexuality, Genders and Bodies along with a degree in Political Science.

Law and politics, assisted reproductive technologies, public policy, federalism

The University of Guelph has provided an amazing experience of community and learning in my time as a graduate student. My advisors, peers and the Guelph academic community at large have created a welcoming space that celebrates rigorous learning, cultural diversity and intellectual humility. It is often remarked upon that "it takes a village" to create a successful person. The University of Guelph is that village, and I count myself fortunate to study here.

- Olubiya Mark Ariba, MA POLS Candidate

### Ian Spears:

Conflict/conflict resolution, politics of Africa, Palestinian-Israeli conflict, development and violence, international relations

### Deborah Stienstra:
