Master of Applied Nutrition: MAN

The Master of Applied Nutrition (MAN) program is the only one-year graduate practicum program of its kind in Ontario. This unique interdisciplinary academic program prepares students to work in a practical setting by combining theory, empirical knowledge and professional skills. This dietetic education program is accredited by the Partnership for Dietetic Education and Practice (PDEP) and prepares students for eligibility for registration with a provincial dietetics regulatory body.

uoguel.ph/man

Program

The MAN program consists of three components:
- Practicum placements
- Research Portfolio
- Graduate course work

Admission Requirements

Students applying to the MAN program must have:
- An honours degree within the previous three years from a dietetic program accredited by PDEP
- A minimum average of at least 75% in the last two years of their undergraduate program
- Grades of at least 75% in applied statistics and social science research methods courses
- These requirements may be in progress at the time of application but must be completed by April 30
- Please see website for additional program requirements

Application Deadline:
December 12, 2024

Master of Applied Nutrition, 2019-2020 cohort

EXPERIENTIAL LEARNING OPPORTUNITIES

University of Guelph is centrally located. Diverse training experiences include hospitals, family health teams, private practice dietitians and large national organizations. Four students will complete their practicum training in clinical nutrition at the Grand River Hospital (Kitchener) each year.
