

## Master of Real Estate: MRE

Lang's Master of Real Estate program will provide you with an enriching, professionally relevant, and flexible academic experience. By combining advanced level courses on innovative topics with exposure to a wide variety of practical issues, our graduates have the kind of solid foundation of theoretical and technical knowledge needed to identify and address the emerging challenges facing the large and fast-growing real estate industry.

### Program

The full-time 12-month course-based Master of Real Estate program is designed to appeal to early career real estate professionals who wish to improve their skills and expertise to enhance career prospects; and for people without prior training in real estate but, because of personal experience and interest, wish to pursue a career in real estate. During your program, you will find yourself collaborating with peers and industry professionals in a diverse range of different companies, such as:

- Skyline Group of Companies
- Cooperators
- Colliers Canada
- Allied Properties
- Central Canadian Chapter of the Society of Industrial and Office Realtors (SIOR)

### Application Deadline:

January 15

### Admission Requirements

- Four-year undergraduate degree from a recognized university, preferably in business, or demonstrated experience in the industry.
- B- average (2.7 GPA, 70-72%) in your last two years of full-time study

- Two years of relevant work experience.
- If English is not your first language, you will be required to submit the results of a standardized language test. Please note that test scores must be valid for the start of the program.
- A GMAT is not required.

### Structure of the Program

This is a full-time graduate program delivered through a combination of online and in-person classes.

Full-time program length:  
3 semesters or 1 year.

Part time program length:  
up to 6 semesters (24 months)
