

## Tourism Research: GDip

The Gordon S. Lang School of Business & Economics, an AACSB accredited institution, offers a Graduate Diploma (GDip) in Tourism Research. Our GDip is designed to extend the knowledge of tourism that students obtained during their undergraduate degree. Students gain analytical skills to find optimal solutions and justifiable recommendations for tourism organizations. It provides highly focused training in tourism research, including theoretical assessment, model development, method selection, study design, data analysis, and interpretation of results. A path to transfer to our MSc in Tourism & Hospitality is dependent on academic performance in the GDip.

### Program

As a GDip graduate, you will have practical knowledge, competencies, and analytical skills to apply to your career to make informed, optimal recommendations for business, employers, or customers. The program also prepares you for continued studies at the Masters level in tourism, hospitality, or food management.

You will complete 6 courses (3 core and 3 restricted electives) within 1 year.

Coursework in the GDip program includes topics in theory, methods, contemporary issues, and research applications in tourism, food, and hospitality management.
