

# Rural Planning and Development: MPLAN

The Master of Planning program is designed for individuals with 2–3 years of experience seeking to add key skills and capacities in rural planning and development. The program provides the core competencies required for planning and development and facilitates flexibility to ensure students select options that build on their current skills and knowledge. Courses can be taken on campus or online.

[uoguelph.ca/programs/master-of-planning/](https://uoguelph.ca/programs/master-of-planning/)

## PROGRAM

The Master of Planning program consists of 4.0 credits and takes approximately 2–3 semesters to complete. The program can be completed in either full-time or part time studies.

The Master of Planning degree may be used as part of the Prior Learning Assessment route to accreditation with the Professional Standards Board.

## RESEARCH FIELDS

The Master of Planning program offers students the ability to specialize in either Canadian or international context. Further, students are able to complete research in:

- (i) community and social development, (ii) land use planning, (iii) resource and environment planning, (iv) rural policy, and (v) Indigenous planning.

## ADMISSION REQUIREMENTS

Qualified graduates from relevant disciplines (minimum B– average) is required with at least two years of experience in planning or an appropriate professional Undergraduate degree.

## SCHOLARSHIPS AND FUNDING

Scholarship and research assistantships are available annually to incoming students. The program also provides travel and research support.

## FACULTY

For 40 years, U of G has developed leaders in rural planning and development that build the resilience of small towns, Indigenous, and remote communities. Our programs focus on agri-food systems, climate changes, economic development,

international planning, and natural resources management. Our faculty are nationally and internationally recognized for their scholarship, leadership, and contributions to rural planning and development.

# Rural Planning and Development: MSc (Planning)

Planning and Development are processes that permeate most human activities. Practitioners may be found working in a wide range of contexts – public and private sectors as well as not-for-profit organizations. Our program emphasizes planning for resilient rural, Indigenous and remote communities in Canada and Internationally. Our graduates are highly successful in securing employment in the field.
